

Fly Away!

Amelia Earhart first saw an airplane at the Iowa State Fair in 1908, when she was ten years old. She took her first ride in a plane when she was twenty-three years old, and within a year, she had earned her pilot's license.

In 1937, Amelia planned to become the first woman to fly all the way around the world. Sadly, during her attempt, she disappeared, and to this day, no one knows what happened to her.

Fill in the shapes that contain a dot to reveal Amelia's lifelong passion.
